SCITEC
NUTRITION

Proteine del siero di latte istantanee con aggiunti di aminoacidi.

100% Whey Protein* Professional

con aminoacidi aggiunti
con enzimi digestivi
con proteine del siero di latte istantanee
senza glutine

La costruzione del corpo umano

Così come una vera e propria costruzione non va avanti senza materiali da costruzione, anche il nostro organismo ha altrettanto bisogno di sostanze nutritive essenziali necessarie per l'aumento muscolare. Immaginate un cantiere in attesa di mattoni nonostante sia tutto pronto per la costruzione della casa... Similmente, non potete aumentare muscoli senza assicurare le sostanze nutritive necessarie.

Le proteine del siero di latte presenti nel 100% Whey Protein* Professional contribuiscono all'aumento e al mantenimento della massa muscolare nonché al mantenimento di un'ossatura normale**. Ciò che sono i mattoni in un cantiere, per noi sono le proteine! In più, abbiamo arricchito il prodotto con aminoacidi aggiunti - insieme a leucina, glutammina, arginina e taurina - oltre agli aminoacidi che costituiscono le proteine. Inoltre, contiene enzimi, quali papaina e bromelina, che aiutano la degradazione delle proteine.

Il 100% Whey Protein Professional è un prodotto senza glutine. Non per ultimo, potete scegliere tra numerosi gusti, quasi impossibile elencarli tutti, a partire dai gusti tradizionali fino a quelli davvero particolari.

* Proteine derivanti al 100% dal siero di latte.

** Indicazioni scientificamente approvate ed autorizzate dall'Autorità europea per la sicurezza alimentare (EFSA).
